## Rationale

The purpose of the policy is to outline the Ministry of Education requirements for Moral, Social and Cultural Studies (MSCS). The Moral Education Program prepares learners for the ever-rapid changes in social fabric, as well as the need to assess and track trends and changes in moral, community, civic and cultural aspects. It safeguards accomplishments in the formation of a unique local character, preserves national heritage and deters adverse behaviour.

The Social Studies for Non-Arabs Curriculum deepens learners' understanding of social, political and economic systems; improves their comprehension of movements in local and world history; enables them to analyse the relationships between humans and their natural environment and facilitates the development of a strong appreciation of the importance of relating knowledge of past people, events and civilizations to present and future challenges.

Therefore, a need has been identified to transform the Moral Education and Social Studies curricula into one enhanced and comprehensive curriculum, which:

- Preserves the rationale, purpose and intended learning outcomes of both curricula
- Consists of a clearly structured framework
- Contains a well-planned and progressive scope and sequence of units
- Ensures comprehensive and efficient coverage of all learning outcomes
